Notes To The Financial Statements

Texas Water Development Board (580)

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

Entity

The accompanying financial statements reflect the financial position of the Texas Water Development Board (TWDB). TWDB is an agency of the state of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements of State Agencies and Universities.

The TWDB was created as an agency of the state in 1957, when the voters of the state approved an amendment adding Section 49-c to Article 3 of the Texas Constitution. The TWDB is primarily responsible for administering state and federally funded financing programs for water-related projects, water resource planning, data collection, and studies relative to the surface and ground water resources of Texas.

The Texas Water Resources Finance Authority (TWRFA) is reported as a discrete component unit. TWRFA is legally separate from, but has a relationship with the state such that exclusion would cause the financial statements to be misleading or incomplete. See Note 19 for more information.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments,* the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Fund Structure

TWDB uses funds to report its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. TWDB is granted appropriations based on appropriated funds. For operational and statutory reasons, TWDB reports several lower level funds that are presented as part of the indicated appropriated fund.

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

Governmental Fund Types and Government-wide Adjustment Funds

Governmental funds focus on the sources and uses of funds. Included in the governmental fund financial statements are general, special revenue and debt service. The general fund is used to account for the agency operations funded by legislative appropriations. Special revenue funds account for specific revenue sources that are restricted or committed for specific purposes other than debt service or capital projects. Debt service funds are used to account for financial resources that are restricted, committed or assigned to expenditure for principal and interest.

Texas Water Development Board (580)

TWDB reports the following governmental funds:

General Revenue Fund

 General Fund Account (Appropriated Fund 0001) – This account is used to account for all financial resources of the state except those required to be accounted for in another fund.

Special Revenue Funds

- Water Infrastructure Fund (Appropriated Fund 0302) –reports the activity of the water infrastructure fund program including loans made under the program and costs of administering the program.
- Economically Distressed Areas Clearance Fund (Appropriated Fund 0356) –holds balances during the year that are to be transferred to the interest and sinking fund to pay debt services.
- Agricultural Water Conservation Fund (Appropriated Fund 0358) holds bond proceeds and activity of grants to other state agencies for agricultural water conservation projects.
- State Water Implementation Fund (Appropriated Fund 0361) reports balances transferred from state economic stabilization fund and invested for financing the state water plan.
- Groundwater District Loan Assistance Fund (Appropriated Fund 0363) holds money transferred from the water assistance fund to provide loans to newly confirmed or created groundwater districts.

Money is transferred to the Loan Fund (0481), Storage Acquisition Fund (0482), and Research/Planning Fund (0483) for specific purposes.
- Water Loan Assistance Fund (Appropriated Fund 0481) reports loans to political subdivisions for construction, acquisition, improvement or enlargement of projects.
- Storage Acquisition Fund (Appropriated Fund 0482) reports loans outstanding related to financing of water storage projects.

These funds receive transfers from the program funds to pay debt service on outstanding bonds. TWDB reports the following funds or accounts as debt service funds.

- Water Infrastructure Fund (Appropriated Fund 0302, Account 3022)
- Economically Distressed Areas Clearance Fund (Appropriated Fund 0357)

Texas Water Development Board (580)

Government-wide Adjustment Funds

TWDB uses government-wide adjustment fund types to adjust fund financial statement balances from the modified accrual basis to the accrual basis. Adjustments are recorded to capital assets and long term liabilities adjustment funds.

Proprietary Fund Type

Proprietary funds focus on determining operating income, changes in financial position and cash flows. Generally accepted accounting principles similar to those used by private sector businesses are applied in accounting for these funds. Enterprise funds may be used to report any activity for which a fee is charged to external users for goods or services. TWDB reports the following enterprise funds.

- Rural Water Assistance Fund (Appropriated Fund 0301) provides financial assistance to rural political subdivisions for water projects.
- Agricultural Water Conservation Fund (Appropriated Fund 0358) holds bond proceeds and activity of loans for agricultural water conservation projects.
- Texas Water Development Fund II Clearance Fund (Appropriated Fund 0370) holds balances during the year that are to be transferred to the interest and sinking fund to pay debt services.
- Texas Water Development Fund II (Appropriated Fund 0371) holds proceeds from sale of bonds for the self-supporting general obligation bonds. Reports loans, grants and costs to administer the Development Fund and State Participation programs.
- Texas Water Development Fund II Interest and Sinking Fund (Appropriated Fund 0372)

 receives transfers from the program fund and clearance fund for payment of debt service on outstanding bonds.
- State Revolving Funds (Appropriated Fund 9999) funds held outside the treasury for purposes of the following federally supported programs
 - Clean Water State Revolving Fund (Account 0651)
 - CPLP State Revolving Fund (Account 0851)
 - Drinking Water State Revolving Fund (Account 0951)

Fiduciary Fund Type

Fiduciary funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity.

Agency Funds have no equity, assets equal liabilities and do not include revenues or expenditures. The agency fund reported by TWDB is the child support deductions suspense account.

Component Units

The Texas Water Resources Finance Authority is reported as a discretely presented proprietary component unit in the financial statements.

Texas Water Development Board (580)

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual method basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end.

For this purpose, revenues are considered to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures are generally recognized when the related fund liability is incurred. However, principal and interest on bonds is recorded only when due and compensated absences and claims and judgments are recorded when they are expected to be liquidated with expendable available financial resources. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt are reported as other financing sources.

Governmental adjustment fund types are used to build the government-wide financial statements and are accounted for using the accrual method of accounting.

Proprietary funds are accounted for on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred.

Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary fund's principal ongoing operations. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

Net Position and Fund Balances

When both restricted and unrestricted resources are available for use, restricted resources are used first, then unrestricted resources are used as they are needed.

Budget and Budgetary Accounting

TWDB's budget is prepared on a performance-based concept and is represented by biennial appropriations authorized by the Legislature and approved by the governor. Much of the activity included in this report is not appropriated through the budget process.

Texas Water Development Board (580)

Assets, Liabilities, and Fund Balances / Net Position

Assets

Cash and Cash Equivalents

Cash held in the state treasury and any short-term highly liquid investments with an original maturity of three months or less.

Investments

Amounts invested related to programs of the TWDB. Investments are reported at fair value. See Note 3 for more information on investments.

Interest and Dividends Receivable

Accrued interest receivable on loans and contracts as of the balance sheet date is included in the proprietary funds. For the governmental funds, interest due as of the balance sheet date is only accrued if it is expected to be received within the next 60 days.

Notes / Loans and Contracts Receivable

Although collateralized by bonds of the receiving entity, loans made to political subdivisions are presented as Notes/Loans and Contracts Receivable at par. The portion due within the next year is shown separately as a current asset with the remainder as noncurrent. See Schedule 6 for a detailed listing of all outstanding loans and contracts receivable by program.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements

Capital Assets

Capital assets are assets with a cost above a set minimum capitalization threshold that, when acquired, have an estimated useful life of more than one year. The capitalization thresholds and useful lives of TWDB's capital assets are as follows.

Capitalization Thresholds by Class of Asset		
Classification	Capitalization Threshold	Estimated Useful Life
Buildings and Building Improvements	\$ 100,000	5-30 years
Facilities and Other Improvements	100,000	10-69 years
Furniture and Equipment	5,000	3-15 years
Vehicles, Boats and Aircraft	5,000	5-40 years
Internally Generated Computer Software	1,000,000	3-10 years
Other Computer Software	100,000	3-10 years

All capital assets acquired by TWDB are capitalized at cost or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at estimated fair value at the date of donation. Assets are depreciated over the estimated useful life of the asset using the straight-line method. See Note 2 for details on TWDB's capital asset activity for fiscal 2015.

Texas Water Development Board (580)

Liabilities

Accounts Payable

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Payroll Payable

Government Code §659.083 requires state agencies to pay state employees on the first working day of the month following the pay period. Consequently, the reporting of payroll at August 31 is presented as Payroll Payable.

Employees' Compensable Leave Balances

Employees' compensable leave balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net position.

Bonds Payable – General Obligation Bonds

The un-matured principal of general obligation bonds is accounted for as a liability in the proprietary funds and in the Long-term Liabilities adjustments fund. Bonds Payable are reported separately as either current – the amount due within the next year – or noncurrent.

Bonds payable are recorded at par, plus unamortized premium. For governmental funds, the bond proceeds are accounted for as an "Other Financing Source" when received, and expenditures for payment of principal and interest are recorded in Debt Service funds when paid. These amounts are adjusted in the Long-term Liabilities adjustments fund. General obligation bonds reported in the proprietary funds follow the same accounting as for revenue bonds.

Bonds Payable - Revenue Bonds

Revenue bonds are generally accounted for in the proprietary funds. The bonds payable are reported at par less unamortized discount or plus unamortized premium. Interest expense is reported on the accrual basis, with amortization of discount or premium. Bonds Payable are reported separately as either current – the amount due within the next year – or noncurrent in the statement of net position.

Fund Balance / Net Position

"Fund balance" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. "Net position" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary, and fiduciary fund statements.

Fund Balance Components

Fund balances for governmental funds are classified as restricted, committed, or unassigned in the fund financial statements.

• Restricted fund balance includes those resources that have constraints placed on their use through external parties — such as creditors, grantors, contributors, laws or

Texas Water Development Board (580)

regulations of other governments — or by law through constitutional provisions or enabling legislation.

- Committed fund balance can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state's highest level of decision making authority.
- Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

Net Position Components

The potential categories for net position include

- Net Investment In Capital Assets capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.
- Restricted net position restricted assets reduced by liabilities and deferred inflows or resources related to those assets. Assets are restricted when constraints placed on net resources are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net position net resources that do not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by management, but can be removed or modified. Also includes any deficit amounts of net position.

Interfund Activities and Balances

The agency has the following types of transactions among funds:

- (1) Transfers: Legally required transfers that are reported when incurred as 'Transfers In' by the recipient fund and as 'Transfers Out' by the disbursing fund.
- (2) Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- (3) Interfund receivables and payables: Interfund loans are reported as Interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as "Current", repayment for two (or more) years is classified as "Non-Current".

Statement of Cash Flows

Cash Flows from Investing Activities

Non-program Loans

The loans that the TWDB makes to entities such as cities, counties, and other political subdivisions do not meet the criteria for inclusion as Cash Flows from Operating Activities on the Statement of Cash Flows. The loans made by the TWDB are referred to on the Statement of Cash Flows as "non-program" loans to distinguish them from loans made to individuals, and their cash flows are included as Cash Flows from Investing Activities.

Classification Differences

Although the primary operation of the TWDB's enterprise funds is the borrowing and lending of money for water related projects, the major components of the Operating Income or Loss on the Statement of Revenues, Expenses, and Changes in Fund Net Position are classified on the Statement of Cash Flows as either Cash Flows from Investing Activities (Interest and Investment Income) or Cash Flows from Noncapital Financing Activities (Interest Expense).

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from state employment, provided the employee has had continuous employment with the state for six months.

Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the statement of net position. Both an expense and liability for business-type activities are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting employees accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.

The TWDB had 51 general obligation bond series outstanding at August 31, 2015.

Water Financial Assistance/Development Fund II

Texas Constitution Article 3, Sections 46-c, 49-d, 49-d-1, 49-d-2, 49-d-6, 49-d-7, 49-d-8, 49-d-9, 49-d-10, 49-d-11, 50-d, and sections of the Texas Water Code authorize the TWDB to issue general obligation bonds.

Bond proceeds provide financial assistance to political subdivisions for water development, water quality enhancement and flood control projects.

The Water Financial Assistance Development Fund II (DFUND II) program bonds are also used to provide advances to the Clean Water and Drinking Water State Revolving Funds for the State Match portion of these programs, as well as advances to the Rural Water Assistance Fund and Water Infrastructure Fund for loans to political subdivisions.

General obligation bonds that should not require the use of general revenues for payment of debt service are known as "self-supporting." The bonds in this program are generally designed to be self-supporting through the use of loan repayments to pay debt service. The Constitution and Legislature, however, have permitted bonds associated with the certain programs to not be fully self-supporting. The bonds issued to fund the Economically Distressed Areas Program (EDAP) are not expected to be fully self-supporting and the bonds issued for the Water Infrastructure Fund (WIF) have some series that are not self-supporting.

In the event that amounts available in the Development Fund II are insufficient to meet debt service requirements, funds are transferred from the State's general revenue fund. The calculation of the annual transfer from the general revenue fund is based on a comparison between the debt service requirement for the fiscal year and the assets available in the Development Fund II Interest and Sinking Fund 15 days prior to debt service payment dates. The table on the following page provides a summary by fiscal year of transfers from the State's general revenue fund for debt service by financing program.

Texas Water Development Board (580)

As of August 31, 2015, the TWDB is authorized but has not issued \$6,586,486,578 of general obligation bond authority under the Constitution. Of that balance, \$164,840,000 remained for the Agricultural Water Conservation Program and \$101,747,628 remained for the EDAP program. The remaining amount may be used for additional DFUND II self-supporting issuances.

The Texas Constitution, Article III, section 49-d-11 authorizes TWDB to issue general obligation bonds for the DFUND II in amounts such that the aggregate principal of bonds issued under this section outstanding at any time does not exceed \$6 billion. As of August 31, 2015, the TWDB has not issued bonds using the \$6 billion authority.

Revenue Bonds

The Texas Constitution and Water Code authorize the TWDB to issue revenue bonds backed by pledged revenue sources and restricted funds. The TWDB had five revenue bond series outstanding at August 31, 2015.

As August 31, 2015, the TWDB has issued revenue bonds only for the purpose of providing funds for the Clean Water State Revolving Fund. The TWDB has authority to sell revenue bonds for the following purposes:

Texas Water Development Board (580)

- (1) To finance the construction of water and wastewater projects of political subdivisions and non-profit water supply corporations;
- (2) To provide interim financing to political subdivisions that are also receiving long-term financing from the TWDB;
- (3) To provide the state matching funds for federal grants under the Federal Water Pollution Control and the Safe Drinking Water Acts.
- (4) To provide financing for projects in the state water plan associated with the State Water Implementation Revenue Fund for Texas.

Clean Water State Revolving Fund (CWSRF)

Subchapter J, Chapter 15 and Subchapter I, Chapter 17, Texas Water Code, as amended, and Chapter 1207, Texas Government Code, as amended, authorizes the TWDB to issue an unlimited amount of revenue bonds to fund certain eligible projects. TWDB's revenue bonds do not constitute a debt of the State and neither the full faith nor credit, nor the taxing authority of the State is in any manner pledged, given, or loaned for the payment of the revenue bonds. Further, the TWDB's revenue bonds are not secured by or payable from money in Development Fund II.

Pledged Future Revenues

Pledged revenues are those specific revenues that are formally committed to directly secure the payment of bond debt service. The table below provides information on pledged revenue and pledged future revenue of the self-supporting general obligation and revenue bonds.

Put Bonds

As of August 31, 2015, the Board has two put bond series outstanding, General Obligation Water Financial Assistance Bonds Series 2015A-2 and 2015B-2. The two series of Water Financial Assistance Bonds were issued in an initial rate mode, which terminate on the mandatory tender dates. Upon the termination date, the bonds are expected to be remarketed or refunded if not already called prior to that date. The Board has not secured any credit or liquidity facility for the payment of the purchase price of the bonds upon the mandatory tender date, as the purchase price is expected to be paid by remarketing or refunding proceeds. The Board has no obligation to purchase the bonds on the mandatory tender date except from remarketing proceeds. If the bonds are not remarketed or otherwise redeemed, the interest rate on the bonds will increase to the stepped rate.

NOTE 12: Interfund Activity and Transactions

Interfund activity refers to financial interactions between funds and/or blended component units and is restricted to internal events. Interfund transactions refer to financial interactions between TWDB and another agency of the state of Texas.

Interfund Activity

Interfund transfers represent the flow of assets (cash or goods) without equivalent flow of assets in return or a requirement for repayment. In governmental funds, transfers are reported as other financing uses or sources. Transfers are reported in proprietary funds after nonoperating revenues and expenses in the statement of revenues, expenses and changes in fund net position. Amounts not transferred at fiscal year-end are accrued as due to/due from other funds.

Activities between funds that represent lending/borrowing arrangements outstanding at the end of the fiscal year are interfund loans. Individual interfund receivables and payables balances as of August 31, 2015, were as follows:

	Interfund Receivables	Interfund Payables	Current	Noncurrent	Purpose

Interfund Transactions

Federal and State Pass-Throughs are recorded for activity between TWDB and other state agencies related to federal or state grant awards. Amounts not transferred at fiscal year-end are accrued as due to/due from other agencies.

Texas Water Development Board (580)

Note 13: Continuance Subject to Review

Under Water Code Section 6.013, the Texas Water Development Board is subject to review under the Texas Sunset Act (Government Code Chapter 325) but is not abolished under that chapter. The TWDB will be subject to review during the period in which state agencies abolished in 2023 are reviewed and every 12th year thereafter.

Note 14: Adjustments to Fund Balances and Net Position

Restatements

During fiscal 2015, certain accounting changes and adjustments were made that required the restatement of fund balances or net position. This restatement is presented below.

	Fund Balance/ Net Position Sept.1, 2014	Restatements	Fund Balance/ Net Position Sept. 1, 2014 as Restated
Business Type Activities: Enterprise Funds Total	\$ 3,493,485,293.59 \$ 3,493,485,293.59	\$ (14,052,774.82) \$ (14,052,774.82)	\$ 3,479,432,518.77 \$ 3,479,432,518.77

This restatement is necessary to correct prior year receivable for the interfund loan program.

NOTE 15: Contingencies and Commitments

Disclosure of Contingent Liabilities

Rebatable Arbitrage

Rebatable arbitrage is defined by Internal Revenue Code Section 148 as earnings on investments purchased with the gross proceeds of a bond issue in excess of the amount that would have been earned if the investments were invested at a yield equal to the yield on the bond issue. This rebatable arbitrage must be paid to the federal government. The Board is entitled to invest its bond proceeds at an unrestricted yield for various temporary periods ranging from six months to three years. This unrestricted earnings period begins on the date of delivery of the bond issue. Earnings on any funds held by the Board after the unrestricted earnings period ends must be restricted to the yield of the Board's bond issue. The amount of rebate due to the federal government is determined and payable during each five-year period and upon final payment of the tax-exempt bonds.

Texas Water Development Board (580)

Arbitrage funds have been established within various Texas Water Development Board programs. Deposits into these funds are made according to the verification agent's final report received around January following the close of each fiscal year. The final determination of rebate requirements as established for fiscal year 2014 resulted in no liability. For fiscal year 2015, a preliminary determination of rebatable arbitrage indicates no liability. Any necessary increase in deposit will be made after the final determination is received.

Pending Litigation

As of August 31, 2015, the Texas Water Development Board has one lawsuit pending, which contains a claim for damages against the agency. This suit has loss contingencies that are reasonably possible. An amount has not been specified but county court filings indicate it should be less than \$100,000.00.

Federal Costs

As a prime contractor with a federal granting agency, the Board is contingently liable to refund any disallowed costs to the granting agency. The amount of disallowed cost, if any, was undeterminable at August 31, 2015.

Disclosure of Significant Commitments

Outstanding Loan and Grant Commitments

As of August 31, 2015, the Board had made commitments to provide political subdivisions and non-profit entities financing from the proceeds remaining from current bond issues, and from the proceeds of future bond issues, from the federal draw downs, or from appropriations as follows:

	For Loans	For Grants	Total

Note 16: Subsequent Events

The TWDB plans to issue State Water Implementation Revenue Fund for Texas Revenue Bonds Series 2015A and 2015B on November 4, 2015, in par amounts of \$798,450,000 and \$11,960,000, respectively. The purpose of the issuance is to provide money to provide financial assistance through the purchase of or entering into political subdivision obligations, and to pay the costs of issuance of the bonds.

Texas Water Development Board (580)

The TWDB also plans to issue State of Texas Water Financial Assistance Bonds Series 2015D on November 24, 2015, in a par amount of \$234,795,000 to provide financial assistance for a water assistance project and to pay the costs of issuance of the bonds.

NOTE 17: Risk Management

The Texas Water Development Board is exposed to property and casualty loss, and workers compensation claims. The Board uses a number of approaches to decrease risks and protect against losses to the agency. These methods include internal practices and employee training. Additionally, the Board has adopted an ethics policy applicable to all Board employees as well as a fraud, waste and abuse policy.

The Board provides financial assistance to political subdivisions of the state for construction of water-related facilities. The Board does not manage or control the facilities and has no liability for the construction or operation of the facilities. The Board requires its borrowers to assume responsibility in complying with all state and federal laws, rules, and regulations in the construction and operation of facilities. The Board's risks generally do not arise from providing financial assistance, but fraud or wrong doing by employees could subject the individual employees to personal liability. The Board's Internal Auditor and its Operations and Administration Division both evaluate potential for waste, fraud and abuse at the Board.

The Board operates a fleet of motor vehicles and watercraft. The Board is self-insured as to its own property losses, and the liability of loss to others. The Attorney General defends the agency and personnel against any lawsuit brought as a result of the operation of the motor vehicles or watercraft. The Board performs an annual review of the driving records of employees who drive agency vehicles. Also, Board policy prohibits employees from using Board vehicles for private purposes.

The Board assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently, there is no purchase of commercial insurance. The Board participates in the State Office of Risk Management's (SORM) Risk Management and Worker's Compensation Coverage Program. The Board's assessment for fiscal year 2015 was \$36,816.71. The assessment covers worker's compensation and risk management costs.

The Board's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported.

Changes in the balances of the Board's claims liabilities during fiscal years 2014 and 2015 were:

	Begin	ining Balance	Increases		Decreases		Ending Balance	
2015	\$	0.00	\$	0.00	\$	0.00	\$	0.00
2014	\$	7,500.00	\$	105,000.00	\$	112,500.00	\$	0.00

NOTE 18: Management Discussion and Analysis

This note was prepared in accordance with Comptroller guidelines and does not constitute full management's discussion and analysis per generally accepted accounting principles.

Bond Issuances

In fiscal year 2015, the Board issued General Obligation Water Financial Assistance Refunding Bonds, Series 2015A, 2015B, and 2015C, with a par value of \$119,945,000. These bonds refunded earlier debt issued to fund projects in the Development Fund II, and Economically Distressed Areas Programs. See Note 6 for additional detail on this refunding transaction.

The Board also issued General Obligation Water Financial Assistance Bonds, Series 2015E, 2015F, and 2015G, with a par value of \$92,920,000. These bonds were issued to fund projects in the Development Fund II, and Economically Distressed Areas Programs.

Financial Highlights

In November 2014, the TWDB received a \$2 billion transfer in from the state's economic stabilization fund. The funds were deposited to the state water implementation fund for Texas (SWIFT) for capitalization of the State Water Plan Funding Program discussed in the next section of this note.

Implementation of the State Water Plan Funding Program

TWDB has implemented the provisions of legislation from the 83rd legislature and the constitutional amendment approved by voters in November 2013, including adoption of relevant rules and has committed to providing financial assistance to borrowers in fiscal year 2016.

The full implementation of this program will result in the addition of the state water implementation revenue fund for Texas (SWIRFT) to the fiscal 2016 annual financial report. TWDB anticipates issuing revenue bonds to leverage and increase the funding capacity of the program. The initial SWIRFT revenue bond issuance will close in November 2015. Beginning with this issuance and continuing for the next 50 years, the SWIRFT financial balances will increase. There will also be significant annual transfer activity between SWIRFT and the SWIFT under provisions of bond enhancement agreements. See Note 16 for additional information regarding the initial SWIRFT revenue bond issuance.

Note 19: The Financial Reporting Entity

As required by Generally Accepted Accounting Principles, the financial statements present TWDB and its component unit. The component unit discussed in this note is included in the state's reporting entity because of the significance of their operational or financial relationships with the state.

Texas Water Development Board (580)

Discrete Component Units

The TWDB is financially accountable for the following legally separate entity; however, the entity does not provide services entirely or almost entirely to TWDB. The component unit is reported in a separate column in the combined financial statements to emphasize that they are legally separate from the TWDB and the state.

• *Texas Water Resources Finance Authority* (TWRFA) is a legally separate entity created by the Legislature as a governmental entity and body politic and corporate for the purpose of increasing the availability of financing for water-related projects, and primarily benefits the citizens of Texas. A board of directors, composed of the three members of the TWDB, governs the TWRFA. The members of the TWDB are appointed by the governor. TWDB, through a sales and servicing agreement, wholly manages TWRFA's operations. Prior to any bonds being issued by the TWRFA, the issuance must be reviewed by the Bond Review Board, which is composed of the governor, lieutenant governor, speaker of the House of Representatives and the Comptroller. Financial statements may be obtained by contacting TWDB at P.O. Box 13231, Austin, Texas 78711-3231.
