November 20, 2016

Honorable Greg Abbott, Governor Honorable Glenn Hegar, Texas Comptroller Ursula Parks, Director, Legislative Budget Board John Keel, CPA, State Auditor

Ladies and Gentlemen:

We are pleased to submit the Annual Financial Report of the Texas Water Development Board for the year ended August 31, 2016, in compliance with the Texas Government Code Annotated, Section 2101.011, and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Texas Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report* (CARF); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Rebecca Trevino, at (512) 936-0809. Jerry Icaro may be contacted at (512) 463-1805 for questions related to the Schedule of Expenditures of Federal Awards.

Sincerely

Jeff Walker

Executive Administrator

Notes To The Financial Statements

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

Entity

The accompanying financial statements reflect the financial position of the Texas Water Development Board (TWDB). TWDB is an agency of the state of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements of State Agencies and Universities.

The TWDB was created as an agency of the state in 1957, when the voters of the state approved an amendment adding Section 49-c to Article 3 of the Texas Constitution. The TWDB is primarily responsible for administering state and federally funded financing programs for water-related projects, water resource planning, data collection, and studies relative to the surface and ground water resources of Texas.

The Texas Water Resources Finance Authority (TWRFA) is reported as a discrete component unit. TWRFA is legally separate from, but has a relationship with the state such that exclusion would cause the financial statements to be misleading or incomplete. See Note 19 for more information.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments,* the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Fund Structure

TWDB uses funds to report its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. TWDB is granted appropriations based on appropriated funds. For operational and statutory reasons, TWDB reports several lower level funds that are presented as part of the indicated appropriated fund.

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

Governmental Fund Types and Government-wide Adjustment Funds

Governmental funds focus on the sources and uses of funds. Included in the governmental fund financial statements are general, special revenue and debt service. The general fund is used to account for the agency operations funded by legislative appropriations. Special revenue funds account for specific revenue sources that are restricted or committed for specific purposes other than debt service or capital projects. Debt service funds are used to account for financial resources that are restricted or assigned to expenditure for principal and interest.

TWDB reports the following governmental funds:

General Revenue Fund

- General Fund Account (Appropriated Fund 0001) This account is used to account for all financial resources of the state except those required to be accounted for in another fund.
- Floodplain Management Emergency (Appropriated Fund 0453) This account is used to provide funding to state agencies, local governments or other agencies for emergency disaster management in accordance with the Texas Disaster Act 1975.

Special Revenue Funds

- Water Infrastructure Fund (Appropriated Fund 0302) This fund reports the activity
 of the water infrastructure fund program including loans made under the program
 and costs of administering the program.
- Economically Distressed Areas Clearance Fund (Appropriated Fund 0356) This fund holds balances during the year that are to be transferred to the interest and sinking fund to pay debt services.
- Agricultural Water Conservation Fund (Appropriated Fund 0358) holds bond proceeds and activity of grants to other state agencies for agricultural water conservation projects.
- State Water Implementation Fund (Appropriated Fund 0361) reports balances transferred from state economic stabilization fund and invested for financing the state water plan.
- Groundwater District Loan Assistance Fund (Appropriated Fund 0363) holds money transferred from the water assistance fund to provide loans to newly confirmed or created groundwater districts.
- Texas Water Development Fund II Clearance Fund (Appropriated Fund 0370) -This fund holds balances during the year that are to be transferred to the interest and sinking fund to pay debt services.
- Texas Water Development Fund II (Appropriated Fund 0371) holds proceeds from sale of bonds for the non-self-supporting economically distressed areas program. Reports loans, grants and costs to administer the program.
- Water Assistance Fund (Appropriated Fund 0480) receives monies appropriated for use or aid of water development, water conservation, water quality enhancement or flood control. Money is transferred to the Loan Fund (0481), Storage Acquisition Fund (0482), and Research/Planning Fund (0483) for specific purposes.
- Water Loan Assistance Fund (Appropriated Fund 0481) reports loans to political subdivisions for construction, acquisition, improvement or enlargement of projects.
- Storage Acquisition Fund (Appropriated Fund 0482) reports loans outstanding related to financing of water storage projects.
- Research and Planning Fund (Appropriated Fund 0483) reports assistance provided to perform research relating to the conservation and development of the state's water resources, flood control plans and stream flow data.

Debt Service Funds

These funds receive transfers from the program funds to pay debt service on outstanding bonds. TWDB reports the following funds or accounts as debt service funds.

- Water Infrastructure Fund (Appropriated Fund 0302, Account 3022)
- Economically Distressed Areas Clearance Fund (Appropriated Fund 0357)

- Texas Water Development Fund II Interest and Sinking Fund (Appropriated Fund 0372)
- State Water Implementation Revenue Fund (Appropriated Fund 0362, Account 1362)

Government-wide Adjustment Funds

TWDB uses government-wide adjustment fund types to adjust fund financial statement balances from the modified accrual basis to the accrual basis. Adjustments are recorded to capital assets and long term liabilities adjustment funds.

Proprietary Fund Type

Proprietary funds focus on determining operating income, changes in financial position and cash flows. Generally accepted accounting principles similar to those used by private sector businesses are applied in accounting for these funds. Enterprise funds may be used to report any activity for which a fee is charged to external users for goods or services. TWDB reports the following enterprise funds.

- Rural Water Assistance Fund (Appropriated Fund 0301) fund provides financial assistance to rural political subdivisions for water projects.
- Agricultural Water Conservation Fund (Appropriated Fund 0358) holds bond proceeds and activity of loans for agricultural water conservation projects.
- Texas Water Development Fund II Clearance Fund (Appropriated Fund 0370) -This fund holds balances during the year that are to be transferred to the interest and sinking fund to pay debt services.
- Texas Water Development Fund II (Appropriated Fund 0371) holds proceeds from sale of bonds for the self-supporting general obligation bonds. Reports loans, grants and costs to administer the Development Fund and State Participation programs.
- Texas Water Development Fund II Interest and Sinking Fund (Appropriated Fund 0372) receives transfers from the program fund and clearance fund for payment of debt service on outstanding bonds.
- State Revolving Funds (Appropriated Fund 9999) funds held outside the treasury for purposes of the following federally supported programs
 - Clean Water State Revolving Fund (Account 0651)
 - CPLP State Revolving Fund (Account 0851)
 - Drinking Water State Revolving Fund (Account 0951)
- State Water Implementation Revenue Fund (Appropriated Fund 0362) funds held outside the Treasury for purposes of the State Water Implementation Fund (SWIFT) supported programs. Receives proceeds from sale of bonds for selfsupporting revenue bonds. Reports loans, grants and costs to administer the program.
- State Water Implementation Revenue Assistance Fund (Appropriated Fund 0362, Account 1363) receives funds transferred from the State Water Implementation Fund to purchase investments in support of debt service on outstanding revenue bonds.

Fiduciary Fund Type

Fiduciary funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. Agency

funds are used to account for assets the government holds on behalf of others in a purely custodial capacity.

Agency Funds have no equity, assets equal liabilities and do not include revenues or expenditures. The agency fund reported by TWDB is the child support deductions suspense account.

Component Units

The Texas Water Resources Finance Authority is reported as a discretely presented proprietary component unit in the financial statements.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual method basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end.

For this purpose, revenues are considered to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures are generally recognized when the related fund liability is incurred. However, principal and interest on bonds is recorded only when due. Compensated absences as well as claims and judgments are recorded when they are expected to be liquidated with expendable available financial resources. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt are reported as other financing sources.

Governmental adjustment fund types are used to build the government-wide financial statements and are accounted for using the accrual method of accounting.

Proprietary funds are accounted for on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred.

Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary fund's principal ongoing operations. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

Net Position and Fund Balances

When both restricted and unrestricted resources are available for use, restricted resources are used first, then unrestricted resources are used as they are needed.

Budget and Budgetary Accounting

TWDB's budget is prepared on a performance-based concept and is represented by biennial appropriations authorized by the Legislature and approved by the governor. Much of the activity included in this report is not appropriated through the budget process.

Assets, Liabilities, and Fund Balances / Net Position

Assets

Cash and Cash Equivalents

Cash held in the state treasury and any short-term highly liquid investments with an original maturity of three months or less.

Investments

Amounts invested related to programs of the TWDB. Investments are reported at fair value. See Note 3 for more information on investments.

Interest and Dividends Receivable

Accrued interest receivable on loans and contracts as of the balance sheet date is included in the proprietary funds. For the governmental funds, interest due as of the balance sheet date is only accrued if it is expected to be received within the next 60 days.

Notes / Loans and Contracts Receivable

Although collateralized by bonds of the receiving entity, loans made to political subdivisions are presented as Notes/Loans and Contracts Receivable at par. The portion due within the next year is shown separately as a current asset with the remainder as noncurrent. See Schedule 6 for a detailed listing of all outstanding loans and contracts receivable by program.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements.

Capital Assets

Capital assets are assets with a cost above a set minimum capitalization threshold that, when acquired, have an estimated useful life of more than one year. The capitalization thresholds and useful lives of TWDB's capital assets are as follows.

Capitalization Thresholds by Class of Asset		
Classification	Capitalization Threshold	Estimated Useful Life
Buildings and Building Improvements	\$ 100,000	5-30 years
Facilities and Other Improvements	100,000	10-69 years
Furniture and Equipment	5,000	3-15 years
Vehicles, Boats and Aircraft	5,000	5-40 years
Internally Generated Computer Software	1,000,000	3-10 years
Other Computer Software	100,000	3-10 years

All capital assets acquired by TWDB are capitalized at cost or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at estimated fair value at the date of donation. Assets are depreciated over the estimated useful life of the asset using the straight-line method. See Note 2 for details on TWDB's capital asset activity for fiscal 2016.

Liabilities

Accounts Payable

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Payroll Payable

Government Code §659.083 requires state agencies to pay state employees on the first working day of the month following the pay period. Consequently, the reporting of payroll at August 31 is presented as Payroll Payable.

Employees' Compensable Leave Balances

Employees' compensable leave balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net position.

Bonds Payable – General Obligation Bonds

The un-matured principal of general obligation bonds is accounted for as a liability in the proprietary funds and in the Long-term Liabilities adjustments fund. Bonds Payable are reported separately as either current – the amount due within the next year – or noncurrent.

Bonds payable are recorded at par, plus unamortized premium. For governmental funds, the bond proceeds are accounted for as an "Other Financing Source" when received, and expenditures for payment of principal and interest are recorded in Debt Service funds when paid. These amounts are adjusted in the Long-term Liabilities adjustments fund. General obligation bonds reported in the proprietary funds follow the same accounting as for revenue bonds.

Bonds Payable - Revenue Bonds

Revenue bonds are generally accounted for in the proprietary funds. The bonds payable are reported at par less unamortized discount or plus unamortized premium. Interest expense is reported on the accrual basis, with amortization of discount or premium. Bonds Payable are reported separately as either current –

the amount due within the next year – or noncurrent in the statement of net position.

Fund Balance / Net Position

"Fund balance" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. "Net position" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary, and fiduciary fund statements.

Fund Balance Components

Fund balances for governmental funds are classified as restricted, committed, or unassigned in the fund financial statements.

- Restricted fund balance includes those resources that have constraints placed on their use through external parties — such as creditors, grantors, contributors, laws or regulations of other governments — or by law through constitutional provisions or enabling legislation.
- Committed fund balance can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state's highest level of decision making authority.
- Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

Net Position Components

The potential categories for net position include

- Net Investment In Capital Assets capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.
- Restricted net position restricted assets reduced by liabilities and deferred inflows or resources related to those assets. Assets are restricted when constraints placed on net resources are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net position net resources that do not meet the definition of the two
 preceding categories. Unrestricted net position often has constraints on resources
 that are imposed by management, but can be removed or modified. Also includes
 any deficit amounts of net position.

Interfund Activities and Balances

The agency has the following types of transactions among funds:

(1) Transfers: Legally required transfers that are reported when incurred as 'Transfers In' by the recipient fund and as 'Transfers Out' by the disbursing fund.

- (2) Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- (3) Interfund receivables and payables: Interfund loans are reported as Interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as "Current", repayment for two (or more) years is classified as "Non-Current".

See Note 12 for details of the TWDB's interfund activity and transactions.

Statement of Cash Flows

Cash Flows from Investing Activities

Non-Program Loans

The loans that the TWDB makes to entities such as cities, counties, and other political subdivisions do not meet the criteria for inclusion as Cash Flows from Operating Activities on the Statement of Cash Flows. The loans made by the TWDB are referred to on the Statement of Cash Flows as "non-program" loans to distinguish them from loans made to individuals, and their cash flows are included as Cash Flows from Investing Activities.

Classification Differences

Although the primary operation of the TWDB's enterprise funds is the borrowing and lending of money for water related projects, the major components of the Operating Income or Loss on the Statement of Revenues, Expenses, and Changes in Fund Net Position are classified on the Statement of Cash Flows as either Cash Flows from Investing Activities (Interest and Investment Income) or Cash Flows from Noncapital Financing Activities (Interest Expense).

NOTE 2: Capital Assets

Twenty-five percent of revenue received during fiscal year 2016 from the sale of surplus property originally purchased from general revenue has been re-appropriated for expenditures in accordance with the 84th Legislature, Regular Session, House Bill 1, Article IX, Section 8.03.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the agency will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The agency has a policy requiring collateralization limited to obligations of the U.S. or U.S. government agencies held in the name of the agency. As of August 31, 2016, bank balances were not exposed to custodial credit risk.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the agency will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The agency will only make payment for and accept delivery of securities on a delivery versus payment basis, and securities are held in the name of the agency. As of August 31, 2016, investments were not exposed to custodial credit risk.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. As required by the agency's investment policy, investments purchased must be rated as to investment quality by a nationally recognized investment rating firm with a minimum of an 'A' rating. Furthermore, our investment policy requires that repurchase agreements be collateralized by obligations of the U.S. Government or U.S. Government Agencies. As of August 31, 2016, the agency's credit quality distribution of securities and repurchase agreements with credit risk exposure was as follows.

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from state employment, provided the employee has had continuous employment with the state for six months.

Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the statement of net position. Both an expense and liability for business-type activities are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting employees accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.

NOTE 6: Bonded Indebtedness

As discussed more fully in the sections that follow, the TWDB is authorized through various statutory and constitutional provisions to issue general obligation and revenue bonds and private activity bonds. As of August, 31, 2016, the TWDB had 57 bond issues outstanding. Additional detailed supplemental bond information is disclosed in Schedules 2A - 2F.

General Obligation Bonds

The Texas Constitution authorizes the TWDB to issue general obligation bonds backed by the full faith and credit of the state. The purpose and the sources of debt service for each bond program are summarized below. The TWDB had 51 general obligation bond series outstanding as of August 31, 2016.

• Water Financial Assistance/Development Fund II & Agricultural Water Conservation

Texas Constitution Article 3, Sections 46-c, 49-d, 49-d-1, 49-d-2, 49-d-6, 49-d-7, 49-d-8, 49-d-9, 49-d-10, 49-d-11, 50-d, and sections of the Texas Water Code authorize the TWDB to issue general obligation bonds.

The Agricultural Water Conservation bond program provides bond proceeds to provide financial assistance to political subdivisions for agricultural water conservation projects. There are currently no bonds outstanding under this program.

The Water Financial Assistance Development Fund II (DFUND II) program bonds are also used to provide transfers to the Clean Water and Drinking Water State Revolving Funds to provide state matching funds to these federally grant-funded programs, to provide transfers to the Water Infrastructure Fund (WIF) and Rural Water Assistance Fund, and to provide funds for loans to political subdivisions issued from the Financial Assistance Account, Economically Distressed Areas Program Account (EDAP), and State Participation Account.

General obligation bonds that should not require the use of general revenues for payment of debt service are known as "self-supporting." The bonds in this program are generally designed to be self-supporting through the use of repayments of political subdivision loans to pay debt service. The Constitution and Legislature, however, have permitted bonds associated with the certain programs to not be fully self-supporting. The bonds issued to fund the EDAP are not expected to be fully self-supporting and the bonds issued for WIF have six series that are not self-supporting.

In the event that amounts available in the DFUND II are insufficient to meet debt service requirements, funds are transferred from the State's general revenue fund. The calculation of the annual transfer from the general revenue fund is based on a comparison between the debt service requirement for the fiscal year and the assets available in the DFUND II Interest and Sinking Fund 15 days prior to debt service payment dates. The table on the following page provides a summary by fiscal year of transfers from the State's general revenue fund for debt service by financing program.

As of August 31, 2016, the TWDB is authorized but has not issued \$6,216,346,425 of general obligation bond authority under the Constitution. Of that balance, \$164,840,000 remains available for the Agricultural Water Conservation Program and \$53,492,380 remains available for the EDAP program. The remaining amount may be used for additional DFUND II issuances.

The Texas Constitution, Article III, section 49-d-11 authorizes TWDB to issue general obligation bonds for the DFUND II in amounts such that the aggregate principal of bonds issued under this section outstanding at any time does not exceed \$6 billion, and such amount is included in the authorized but unissued amount above. As of August 31, 2016, the TWDB has issued bonds pursuant to section 49-d-11, and there is \$1,985,956 of aggregate principal outstanding.

Revenue Bonds

The Texas Constitution and Water Code authorize the TWDB to issue revenue bonds backed by pledged revenue sources and restricted funds. The TWDB had six revenue bond series outstanding at August 31, 2016.

The TWDB has authority to sell revenue bonds for the following purposes:

- (1) To finance the construction of water and wastewater projects of political subdivisions and non-profit water supply corporations;
- (2) To provide interim financing to political subdivisions that are also receiving longterm financing from the TWDB;
- (3) To provide the state matching funds for federal grants under the Federal Water Pollution Control and the Safe Drinking Water Acts.
- (4) To provide financing for projects in the State Water Plan associated with the State Water Implementation Revenue Fund for Texas (SWIRFT).
- Clean Water State Revolving Fund (CWSRF)

Subchapter J, Chapter 15 and Subchapter I, Chapter 17, Texas Water Code, as amended, authorize the TWDB to issue an unlimited amount of revenue bonds to fund certain eligible projects. TWDB's revenue bonds do not constitute a debt of the State and neither the full faith nor credit, nor the taxing authority of the State is in any manner pledged, given, or loaned for the payment of the revenue bonds. Further, the TWDB's revenue bonds are not secured by or payable from money in DFUND II, but are secured by the repayments of political subdivision loans and certain assets in the State Revolving Fund.

• State Water Implementation Revenue Fund for Texas

Sections 49-d-12 and 49-d-13 of Article III of the Texas Constitution provide authorization for the creation of the State Water Implementation Fund for Texas (SWIFT) and SWIRFT as constitutionally dedicated funds in the State Treasury outside the general revenue fund created for the purpose of implementing the State Water Plan. Subchapter G and Subchapter H, Chapter 17, Texas Water Code, govern the operation of SWIFT and SWIRFT, in which bonds may be issued for SWIRFT for the purpose of providing financial assistance to political subdivisions to be used to fund State Water Plan projects, and are secured by the repayments of political subdivision obligations, certain assets in SWIRFT, and by certain transfers from SWIFT to SWIRFT.

In Fiscal Year 2016, the TWDB issued SWIRFT bonds Series 2015A and taxable Series 2015B, with a combined par value of \$810,410,000. This was the first issuance under the Master Trust Indenture created for this new program. As a part of the closing on the bonds, \$108,174,488.30 was transferred from SWIFT to SWIRFT to provide security for the Series 2015A and 2015B bonds. The Series 2015A and 2015B bonds were issued to provide financial assistance for projects in the State Water Plan through the purchase of or entering into political subdivision obligations, and to pay the costs of issuance of the bonds.

Pledged Future Revenues

Pledged revenues are those specific revenues that are formally committed to directly secure the payment of bond debt service. The table below provides information on pledged revenue and pledged future revenue of the TWDB's revenue bonds.

Pledged Future Revenue

Put Bonds

As of August 31, 2016, the Board has three put bond series outstanding, General Obligation Water Financial Assistance Refunding Bonds Sub-Series 2015A-2 and 2015B-2, and General Obligation Water Financial Assistance and Refunding Bonds, Sub-Series 2016B-2. The three Sub-Series of Water Financial Assistance Bonds were issued in an initial rate mode, which terminate on the mandatory tender dates. Upon the termination date, the bonds are expected to be remarketed or refunded if not already called prior to that date. The Board has not secured any credit or liquidity facility for the payment of the purchase price of the bonds upon the mandatory tender date, as the purchase price is expected to be paid by remarketing or refunding proceeds. The Board has no obligation to purchase the bonds on the mandatory tender date except from remarketing proceeds. If the bonds are not remarketed or otherwise redeemed, the interest rate on the bonds will increase to the stepped rate.

Refunding Bonds

General Obligation Bonds

In fiscal year 2016, the Board issued General Obligation Water Financial Assistance and Refunding Bonds, Series 2016B, 2016C (Economically Distressed Areas Program), and 2016D (State Participation Program) in various Sub-Series with a combined par value of \$149,540,000 of which \$44,570,000 was issued for new money purposes in Sub-Series

2016B-1. The Series 2016B bonds included a variable rate Sub-Series and a taxable Sub-Series, and the Series 2016C bonds included a taxable Sub-Series. The Series 2016BCD bonds were issued at a premium of \$18,183,041.10 and the underwriter's discount amounted to \$512,703.45, resulting in a net proceeds amount of \$167,210,337.65. The net present value savings were \$19,657,172.37 or 17.22% of the refunded bonds. The issuance closed on July 14, 2016.

See Schedule 2F for additional detail on the individual bond series refunded using the net proceeds from the sale.

NOTE 12: Interfund Activity and Transactions

Interfund activity refers to financial interactions between funds and/or blended component units and is restricted to internal events. Interfund transactions refer to financial interactions between TWDB and another agency of the state of Texas.

Interfund Activity

Interfund transfers represent the flow of assets (cash or goods) without equivalent flow of assets in return or a requirement for repayment. In governmental funds, transfers are reported as other financing uses or sources. Transfers are reported in proprietary funds after nonoperating revenues and expenses in the statement of revenues, expenses and changes in fund net position. Amounts not transferred at fiscal year-end are accrued as due to/due from other funds.

Activities between funds that represent lending/borrowing arrangements outstanding at the end of the fiscal year are interfund loans. Individual interfund receivables and payables balances as of August 31, 2016, were as follows:

	Interfund	Interfund			
	Receivables	Payables	Current	Noncurrent	Purpose

Interfund Transactions

Federal and State Pass-Throughs are recorded for activity between TWDB and other state agencies related to federal or state grant awards. Amounts not transferred at fiscal yearend are accrued as due to/due from other agencies.

NOTE 13: Continuance Subject to Review

Under Water Code Section 6.013, the Texas Water Development Board is subject to review under the Texas Sunset Act (Government Code Chapter 325) but is not abolished under that chapter. The TWDB will be subject to review during the period in which state agencies abolished in 2023 are reviewed and every 12th year thereafter.

NOTE 15: Contingencies and Commitments

Disclosure of Contingent Liabilities

Rebatable Arbitrage

Rebatable arbitrage is defined by Internal Revenue Code Section 148 as earnings on investments purchased with the gross proceeds of a bond issue in excess of the amount that would have been earned if the investments were invested at a yield equal to the yield on the bond issue. This rebatable arbitrage must be paid to the federal government. The TWDB is entitled to invest its bond proceeds at an unrestricted yield for various temporary periods ranging from six months to three years. This unrestricted earnings period begins on the date of delivery of the bond issue. Earnings on any funds held by the TWDB after the unrestricted earnings period ends must be restricted to the yield of the TWDB's bond issue. The amount of rebate due to the federal government is determined and payable during each five-year period and upon final payment of the tax-exempt bonds.

Arbitrage funds have been established within various TWDB programs. Deposits into these funds are made according to the arbitrage services provider's final report received around January following the close of each fiscal year. The TWDB estimates that rebatable arbitrage, if any, will not be material to the agency's financial condition.

Pending Litigation

As of August 31, 2016, the TWDB has two pending lawsuits and one pending claim. In one of the pending lawsuits, there is no claim for monetary damages. In the remaining lawsuit, a settlement of \$19,200 is pending payment. The pending claim has a probable loss of \$9,000.

Federal Costs

As a prime contractor with a federal granting agency, the TWDB is contingently liable to refund any disallowed costs to the granting agency. The amount of disallowed cost, if any, was undeterminable at August 31, 2016.

Disclosure of Significant Commitments

Outstanding Loan and Grant Commitments

As of August 31, 2016, the TWDB had made commitments to provide political subdivisions and non-profit entities financing from the proceeds remaining from current bond issues, and from the proceeds of future bond issues, from federal draw downs, or from appropriations as follows:

	For Loans	For Grant	s Total

** Loans under this program will be financed with the issuance of new revenue bonds

NOTE 16: Subsequent Events

The TWDB issued State Water Implementation Revenue Fund for Texas Revenue Bonds Series 2016 on October 13, 2016, in a par amount of \$600,065,000. The purpose of the issuance is to provide money to provide financial assistance through the purchase of or entering into political subdivision obligations, and to pay the costs of issuance of the bonds.

NOTE 17: Risk Management

The Texas Water Development Board is exposed to property and casualty loss, and worker's compensation claims. The Board uses a number of approaches to decrease risks and protect against losses to the agency. These methods include internal practices and employee training. Additionally, the Board has adopted an ethics policy applicable to all Board employees as well as a fraud, waste and abuse policy that provides for reporting loss, misuse or misappropriation of Board resources to the Board's Internal Auditor or to the State Auditor's Office. The Board's Internal Auditor and its Operations and Administration Division both evaluate potential for fraud, waste and abuse at the Board.

Texas Water Development Board (580)

The Board provides financial assistance to political subdivisions of the state for construction of water-related facilities. The Board's risks generally do not arise from providing financial assistance. The Board does not manage or control the facilities and has no liability for the construction or operation of the facilities. The Board requires its borrowers to assume responsibility in complying with all state and federal laws, rules, and regulations in the construction and operation of facilities.

The Board has created and implemented risk analysis and enhanced contract monitoring procedures for its purchases of goods and services as required by Texas Government Code § 2261.253.

The Board operates a fleet of motor vehicles and watercraft. The Board is self-insured as to its own property losses, and the liability of loss to others. The Attorney General defends the agency and personnel against any lawsuit brought as a result of the operation of the motor vehicles or watercraft. The Board performs an annual review of the driving records of employees who drive agency vehicles. Also, Board policy prohibits employees from using Board vehicles for private purposes.

The Board assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently, there is no purchase of commercial insurance. The Board participates in the State Office of Risk Management's (SORM) Risk Management and Worker's Compensation Coverage Program. The Board's assessment for fiscal year 2016 was \$29,837.89. The assessment covers worker's compensation and risk management costs.

The Board's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported.

Changes in the balances of the Board's claims liabilities during fiscal years 2015 and 2016 were:

	Beginning I	Balance	Increases		Dec	reases	Ending Balance		
2016	\$	0.00	\$ 9,000.00		\$	0.00	\$	9,000.00	
2015	\$	0.00	\$	0.00	\$	0.00	\$	0.00	

NOTE 18: Management Discussion and Analysis

This note was prepared in accordance with Comptroller guidelines and does not constitute full management's discussion and analysis per generally accepted accounting principles.

Bond Issuances

In fiscal year 2016, the Board conducted three issuances of General Obligation bonds and one issuance of the Board's new State Water Implementation Revenue Fund for Texas (SWIRFT) bonds.

The SWIRFT bonds, Series 2015A and taxable Series 2015B, were issued with a par value of \$810,410,000. This was the first issuance under the Master Trust Indenture

created for this new program. The Series 2015A and 2015B bonds were issued to provide financial assistance for projects in the State Water Plan through the purchase of or entering into political subdivision obligations, and to pay the costs of issuance of the bonds.

The Board issued General Obligation Water Financial Assistance Bonds, Series 2015D with a par amount of \$234,795,000 to provide financial assistance to the Lower Colorado River Authority for a water assistance project, and to pay the costs of issuance of the bonds.

The Board also issued General Obligation Water Financial Assistance Bonds, Series 2016A (Economically Distressed Areas Program), with a par amount of \$45,735,000. The bonds were issued to provide a combination of grants and loans for water projects to various political subdivisions in economically distressed areas of the state, and to pay the costs of issuance of the bonds.

The Board also issued General Obligation Water Financial Assistance and Refunding Bonds, Series 2016B, Series 2016C (Economically Distressed Areas Program), and Series 2016D (State Participation Program), with a par amount of \$149,540,000. The bonds were issued to provide new money and refunding proceeds, and to pay the costs of issuance of the bonds. A portion of the proceeds were used to refund debt previously issued to fund projects from the Development Fund II, including the Economically Distressed Areas Program and State Participation program. Bonds were also issued to provide funds to the Financial Assistance Account in order to provide financial assistance to borrowers for water assistance projects.

See Note 6 for additional detail on these transactions.

NOTE 19: The Financial Reporting Entity

As required by Generally Accepted Accounting Principles, the financial statements present TWDB and its component unit. The component unit discussed in this note is included in the state's reporting entity because of the significance of their operational or financial relationships with the state.

Discrete Component Units

The TWDB is financially accountable for the following legally separate entity; however, the entity does not provide services entirely or almost entirely to TWDB. The component unit is reported in a separate column in the combined financial statements to emphasize that they are legally separate from the TWDB and the state.

Texas Water Resources Finance Authority (Authority) is a legally separate entity created by the Legislature as a governmental entity and body politic and corporate for the purpose of increasing the availability of financing for water-related projects, and primarily benefits the citizens of Texas. A board of directors, composed of the three members of the Texas Water Development Board (TWDB), governs the Authority. The members of the TWDB are appointed by the governor. TWDB, through a sales and servicing agreement, wholly manages the Authority's operations.

NOTE 20: Stewardship, Compliance and Accountability

As of August 31, 2016, management is unaware of any material violations of finance related legal and contract provisions.

With regard to compliance and accountability, there are:

- 1. no deficit fund balances or net position in individual funds,
- 2. no expenditures exceeding appropriations in individual funds,
- 3. no changes in accounting principles,
- 4. no changes in reporting of loans,
- 5. no changes in fund types and
- 6. no non-exchange transactions were recorded in the financial statements.
