# Notes To The Financial Statements

## Notes to the Financial Statements

## NOTE 1: Summary of Significant Accounting Policies

#### Entity

The accompanying financial statements reflect the financial position of the Texas Water Development Board (TWDB). TWDB is an agency of the state of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements of State Agencies and Universities.

The TWDB was created as an agency of the state in 1957, when the voters of the state approved an amendment adding Section 49-c to Article 3 of the Texas Constitution. The TWDB is the state agency responsible for water supply and flood planning, financing, water science and research.

The Texas Water Resources Finance Authority (TWRFA) is reported as a discrete component unit. TWRFA is legally separate from but has a relationship with the state such that exclusion would cause the financial statements to be misleading or incomplete. See Note 19 for more information.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

#### Impact of COVID-19 on TWDB Programs

To date, the TWDB's operations and financial condition have not been materially impacted by COVID-19. Like many other state agencies, COVID-19 required TWDB to transition to a virtual work environment for most of its staff. However, due to pre-COVID management decisions to promote telecommuting, staff transitioned quickly to continue ongoing functions and operate remotely. Presently, the TWDB is supporting the hybrid work model which offers both in-office and telecommuting options for its staff.

### Fund Structure

TWDB uses funds to report its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. TWDB is granted appropriations based on appropriated funds. For operational and statutory reasons,

TWDB reports several lower level funds that are presented as part of the indicated appropriated fund.

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

#### Governmental Fund Types and Government-wide Adjustment Funds

Governmental funds focus on the sources and uses of funds. Included in the governmental fund financial statements are general, special revenue and debt service. The general fund is used to account for agency operations funded by legislative appropriations. Special revenue funds account for specific revenue sources that are restricted or committed for specific purposes other than debt service or capital projects. Debt service funds are used to account for financial resources that are restricted, committed or assigned to expenditure for principal and interest.

TWDB reports the following governmental funds:

#### General and Consolidated Funds

- General Revenue Fund (Appropriated Fund 0001) used to account for all financial resources of the state except those required to be accounted for in another fund.
- GR Account Strategic Mapping (Appropriated Fund 5180) fund consists of appropriations, transfers, gifts or grants, proceeds from map and publication sales for developing, administering, and implementing the strategic mapping program. Uses include grants to political subdivisions and operation of programs in the Texas Natural Resources Information System.

#### Special Revenue Funds

- Texas Infrastructure Resiliency Fund (Appropriated Fund 0175) used for flood projects. Fund may be invested, and any earnings are deposited to the fund.
- Flood Infrastructure Fund (Appropriated Fund 0194) –used for financing for flood projects included in the state flood plan. Depository interest is deposited to the fund.
- Water Infrastructure Fund (Appropriated Fund 0302) reports the activity of the water infrastructure fund program including loans made under the program and costs of administering the program.
- Economically Distressed Areas Clearance Fund (Appropriated Fund 0356) holds balances during the year that are to be transferred to the interest and sinking fund to pay debt services.
- Agricultural Water Conservation Fund (Appropriated Fund 0358) holds bond proceeds and activity of grants to other state agencies for agricultural water conservation projects.
- State Water Implementation Fund (Appropriated Fund 0361) holds balances transferred from state economic stabilization fund and invested for financing the state water plan.

#### **Texas Water Development Board (580)**

- Texas Water Development Fund II (Appropriated Fund 0371) holds proceeds from sale of bonds for the non-self-supporting economically distressed areas program. Reports loans, grants and costs to administer the program.
- Water Assistance Fund (Appropriated Fund 0480) receives monies appropriated for use or aid of water development, water conservation, water quality enhancement or flood control. Money is transferred to the Loan Fund (0481), Storage Acquisition Fund (0482), and Research/Planning Fund (0483) for specific purposes.
- Water Loan Assistance Fund (Appropriated Fund 0481) reports loans to political subdivisions for construction, acquisition, improvement or enlargement of projects.
- Storage Acquisition Fund (Appropriated Fund 0482) reports loans outstanding related to financing of water storage projects.
- Research and Planning Fund (Appropriated Fund 0483) reports assistance provided to perform research relating to the conservation and development of the state's water resources, flood control plans and stream flow data.

#### Debt Service Funds

These funds receive transfers from the program funds to pay debt service on outstanding bonds. TWDB reports the following funds or accounts as debt service funds.

- Water Infrastructure Fund (Appropriated Fund 0302, Account 3022)
- Economically Distressed Areas Clearance Fund (Appropriated Fund 0357)

#### Government-wide Adjustment Funds

TWDB uses government-wide adjustment fund types to adjust fund financial statement balances from the modified accrual basis to the accrual basis. Adjustments are recorded to capital assets and long-term liabilities adjustment funds.

#### **Proprietary Fund Type**

Proprietary funds focus on determining operating income, changes in financial position and cash flows. Generally accepted accounting principles similar to those used by private sector businesses are applied in accounting for these funds. Enterprise funds may be used to report any activity for which a fee is charged to external users for goods or services. TWDB reports the following enterprise funds.

- Rural Water Assistance Fund (Appropriated Fund 0301) provides financial assistance to rural political subdivisions for water projects.
- Agricultural Water Conservation Fund (Appropriated Fund 0358) holds bond proceeds and activity of loans for agricultural water conservation projects.
- Texas Water Development Fund II Clearance Fund (Appropriated Fund 0370) holds balances during the year that are to be transferred to the interest and sinking fund to pay debt service.
- Texas Water Development Fund II (Appropriated Fund 0371) holds proceeds from sale of bonds for the self-supporting general obligation bonds. Reports loans, grants and costs to administer the Development Fund and State Participation programs.

- Texas Water Development Fund II Interest and Sinking Fund (Appropriated Fund 0372) receives transfers from the program fund and clearance fund for payment of debt service on outstanding bonds.
- Local Funds (Appropriated Fund 9999) local funds held outside the treasury for purposes of the following programs:
  - State Water Implementation Revenue Fund (Account 0362)
  - Clean Water State Revolving Fund (Account 0651)
  - Drinking Water State Revolving Fund (Account 0951)

#### Fiduciary Fund Type

Fiduciary funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency Funds have no equity. Assets equal liabilities and do not include revenues or expenditures. The agency fund reported by TWDB is the Child Support Employee Deductions account.

#### **Component Units**

The Texas Water Resources Finance Authority is reported as a discretely presented proprietary component unit in the financial statements.

#### **Basis of Accounting**

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end.

For this purpose, revenues are considered available if they are collected within 60 days of the end of the current fiscal year. Expenditures are generally recognized when the related fund liability is incurred. However, principal and interest on bonds is recorded only when due. Compensated absences and claims and judgments are recorded when they are expected to be liquidated with expendable available financial resources. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt are reported as other financing sources.

Governmental adjustment fund types are used to build the government-wide financial statements and are accounted for using the accrual method of accounting.

Proprietary funds are accounted for on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred.

Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary fund's principal ongoing operations. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

#### Net Position and Fund Balances

When both restricted and unrestricted resources are available for use, restricted resources are used first, then unrestricted resources are used as they are needed.

#### **Budget and Budgetary Accounting**

TWDB's budget is prepared on a performance-based concept and is represented by biennial appropriations authorized by the Legislature and approved by the governor. Much of the activity included in this report is not appropriated through the budget process.

#### Assets, Liabilities, and Fund Balances / Net Position

#### Assets

#### Cash and Cash Equivalents

Cash held in the state treasury and any short-term highly liquid investments with an original maturity of three months or less.

#### **Investments**

Amounts invested related to programs of the TWDB. Investments are reported at fair value. See Note 3 for more information on investments.

#### Interest and Dividends Receivable

Accrued interest receivable on loans and contracts as of the balance sheet date is included in the proprietary funds. For governmental funds, interest due as of the balance sheet date is only accrued if it is expected to be received within the next 60 days.

#### Notes / Loans and Contracts Receivable

Although collateralized by bonds of the receiving entity, loans made to political subdivisions are presented as Notes/Loans and Contracts Receivable at par. The portion due within the next year is shown separately as a current asset with the remainder as noncurrent. See Schedule 6 for a detailed listing of all outstanding loans and contracts receivable by program.

#### Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements

#### Capital Assets

Capital assets are assets with a cost above a set minimum capitalization threshold that, when acquired, have an estimated useful life of more than one year. The capitalization thresholds and useful lives of TWDB's capital assets are as follows.

Capitalization Thresholds by Class of Asset		
Classification	Capitalization Threshold	Estimated Useful Life
Buildings and Building Improvements	\$ 100,000	264 months
Facilities and Other Improvements	100,000	264 months
Furniture and Equipment	5,000	120 months
Vehicles, Boats and Aircraft	5,000	60-120 months
Internally Generated Computer Software	1,000,000	60 months
Other Computer Software	100,000	60 months

All capital assets acquired by TWDB are capitalized at cost or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at estimated fair value at the date of donation. Assets are depreciated over the estimated useful life of the asset using the straight-line method. See Note 2 for details on TWDB's capital asset activity for fiscal 2022.

#### Liabilities

#### Accounts Payable

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

#### Payroll Payable

Government Code §659.083 requires state agencies to pay state employees on the first working day of the month following the pay period. Consequently, the reporting of payroll at August 31 is presented as Payroll Payable.

#### Employees' Compensable Leave Balances

Employees' compensable leave balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net position.

#### Bonds Payable - General Obligation Bonds

The unmatured principal of general obligation bonds is accounted for as a liability in the proprietary funds and in the Long-term Liabilities adjustments fund. Bonds Payable are reported separately as either current – the amount due within the next year – or noncurrent.

Bonds payable are recorded at par, plus unamortized premium. For governmental funds, the bond proceeds are accounted for as an "Other Financing Source" when received, and expenditures for payment of principal and interest are recorded in Debt Service funds when paid. These amounts are

#### **Texas Water Development Board (580)**

adjusted in the Long-term Liabilities adjustments fund. General obligation bonds reported in the proprietary funds follow the same accounting as for revenue bonds.

#### Bonds Payable - Revenue Bonds

Revenue bonds are generally accounted for in proprietary funds. The bonds payable are reported at par less unamortized discount or plus unamortized premium. Interest expense is reported on the accrual basis, with amortization of discount or premium. Bonds Payable are reported separately as either current – the amount due within the next year – or noncurrent in the statement of net position.

#### Fund Balance / Net Position

"Fund balance" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. "Net position" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary, and fiduciary fund statements.

#### Fund Balance Components

Fund balances for governmental funds are classified as restricted, committed, or unassigned in the fund financial statements.

- Restricted fund balance includes those resources that have constraints placed on their use through external parties such as creditors, grantors, contributors, laws or regulations of other governments or by law through constitutional provisions or enabling legislation.
- Committed fund balance can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state's highest level of decision making authority.
- Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

#### Net Position Components

The potential categories for net position include

- Net Invested In Capital Assets capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.
- Restricted net position restricted assets reduced by liabilities and deferred inflows or resources related to those assets. Assets are restricted when constraints placed on net resources are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

• Unrestricted net position - net resources that do not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified. Also includes any deficit amounts of net position.

#### Interfund Activities and Balances

The agency has the following types of transactions among funds:

- (1) Transfers: Legally required transfers that are reported when incurred as 'Transfers In' by the recipient fund and as 'Transfers Out' by the disbursing fund.
- (2) Reimbursements: repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- (3) Interfund receivables and payables: Interfund loans are reported as Interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as "Current", repayment for two (or more) years is classified as "Non-Current".

See Note 12 for details of the TWDB's interfund activity and transactions.

#### **Statement of Cash Flows**

#### **Cash Flows from Investing Activities**

#### Non-program Loans

The loans that the TWDB makes to entities such as cities, counties, and other political subdivisions do not meet the criteria for inclusion as Cash Flows from Operating Activities on the Statement of Cash Flows. The loans made by the TWDB are referred to on the Statement of Cash Flows as "non-program" loans to distinguish them from loans made to individuals, and their cash flows are included as Cash Flows from Investing Activities.

#### **Classification Differences**

Although the primary operation of the TWDB's enterprise funds is the borrowing and lending of money for water related projects, the major components of the Operating Income or Loss on the Statement of Revenues, Expenses, and Changes in Fund Net Position are classified on the Statement of Cash Flows as either Cash Flows from Investing Activities (Interest and Investment Income) or Cash Flows from Noncapital Financing Activities (Interest Expense).

## NOTE 2: Capital Assets

Twenty-five percent of revenue received during fiscal year 2022 from the sale of surplus property originally purchased from general revenue has been re-appropriated for expenditures in accordance with the 86th Legislature, Regular Session, House Bill 1, Article IX, Section 8.03.

The agency will only make payment for and accept delivery of securities on a delivery versus payment basis, and securities are held in the name of the agency. As of August 31, 2022, investments were not exposed to custodial credit risk.

#### **Texas Water Development Board (580)**

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. As required by the agency's investment policy, obligations of states, agencies, counties, cities and other political subdivisions must be rated as to investment quality by a nationally recognized investment rating firm with a minimum of an 'A' rating, commercial paper must be rated not less than A-1 or P-1, and no-load money market mutual funds must be AAA-rated. The investment policy requires that repurchase agreements be collateralized by obligations of the U.S. Government or U.S. Government Agencies, but does not limit credit risk, nor does it limit credit risk for obligations of the United States or its agencies or instrumentalities, direct obligations of the State of Texas, or pooled funds of state agencies in the Texas State Treasury or the Texas Treasury Safekeeping Trust Company. Furthermore, the State Water Implementation Fund for Texas (SWIFT) funds are governed by a separate investment policy, managed by the Texas Treasury Safekeeping Trust Company in accordance with Texas Water Code, Chapter 15, Subchapter G. The following schedule lists S & P and/or Moody's credit rating by investment type as of August 31, 2022 for those investments subject to credit risk.

#### Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued in the event of the employee's resignation, dismissal, or separation from state employment, provided the employee has had continuous employment with the state for six months.

Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the statement of net position. Both an expense and liability for business-type activities are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting employees accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.

#### Pledged Future Revenues

Pledged revenues are those specific revenues that are formally committed to directly secure the payment of bond debt service. The table below provides information on pledged revenue and pledged future revenue of the TWDB's revenue bonds.

#### General Obligation Bonds

The Texas Constitution authorizes the TWDB to issue general obligation bonds backed by the full faith and credit of the state. The purpose and the sources of debt service for each bond program are summarized below. The TWDB had 31 general obligation bond issues (including sub-series) outstanding as of August 31, 2022.

#### Water Financial Assistance/Development Fund II & Agricultural Water Conservation

Texas Constitution Article 3, Sections 49-c, 49-d, 49-d-1, 49-d-2, 49-d-5, 49-d-6, 49-d-7, 49-d-8, 49-d-9, 49-d-10, 49-d-11, 49-d-14, 50-d, and Chapters 15, 16, and 17 of the Texas Water Code authorize the TWDB to issue general obligation bonds.

The Agricultural Water Conservation bond program provides financial assistance to political subdivisions for agricultural water conservation projects. There are currently no bonds outstanding under this program.

The Water Financial Assistance Development Fund II (DFUND II) bonds have also been used to make transfers to the Clean Water and Drinking Water State Revolving Funds to provide state matching funds to these federally grant-funded programs, to make transfers to the Water Infrastructure Fund (WIF) and Rural Water Assistance Fund, and to provide funds for loans to political subdivisions issued from the Financial Assistance Account for the Water Development Fund Program (WDF), Economically Distressed Areas Program Account (EDAP), and State Participation Account.

General obligation bonds that should not require the use of general revenues for payment of debt service are known as "self-supporting." Most of the bonds issued for the DFUND II are designed to be self-supporting through the use of repayments of political subdivision loans to pay debt service. The Constitution and Legislature, however, have permitted bonds associated with the certain programs to not be fully self-supporting. The bonds issued to fund the EDAP are currently the only bonds outstanding that are not self-supporting.

In the event that amounts available in the DFUND II are insufficient to meet debt service requirements, funds are transferred from the State's general revenue fund. The

calculation of the semi-annual transfer from the general revenue fund is based on a comparison between the debt service requirement at each debt service payment date and the assets available in the applicable Interest and Sinking Fund at least 15 days prior to such date. The table on the following page provides a summary by fiscal year of transfers from the State's general revenue fund for debt service by financing program.

- (2) To provide interim financing to political subdivisions that are also receiving longterm financing from the TWDB.
- (3) To provide the state matching funds for federal grants under the Federal Water Pollution Control and the Safe Drinking Water Acts.
- (4) To provide financing for projects in the State Water Plan associated with the State Water Implementation Revenue Fund for Texas (SWIRFT).
- (5) To provide financing for projects funded by the Flood Infrastructure Fund or the Texas Infrastructure Resilience Fund.

## Flood Infrastructure Fund and Texas Infrastructure Resiliency Fund

Subchapter I, Chapter 15 and Subchapter I, Chapter 17, Texas Water Code, as amended, authorize the TWDB to issue an unlimited amount of revenue bonds to finance certain eligible projects funded by the Flood Infrastructure Fund. Subchapter L, Chapter 16, and Subchapter I, Chapter 17, Texas Water Code, as amended, authorize the TWDB to issue an unlimited amount of revenue bonds to finance certain eligible projects funded by the Texas Infrastructure Resiliency Fund. TWDB's revenue bonds do not constitute a debt of the State and neither the full faith nor credit, nor the taxing authority of the State is in any manner pledged, given, or loaned for the payment of the revenue bonds. Further, any revenue bonds issued pursuant to these provisions will not be secured by or payable from money in DFUND II but will be secured by the repayments of political subdivision loans and certain assets in the Flood Infrastructure Fund and the Texas Infrastructure Resiliency Fund, respectively. This authority has not yet been utilized to issue revenue bonds.

## NOTE 12: Interfund Activity and Transactions

Interfund activity refers to financial interactions between funds and/or blended component units and is restricted to internal events. Interfund transactions refer to financial interactions between TWDB and another agency of the state of Texas.

### Interfund Activity

Interfund transfers represent the flow of assets (cash or goods) without equivalent flow of assets in return or a requirement for repayment. In governmental funds, transfers are

reported as other financing uses or sources. Transfers are reported in proprietary funds after nonoperating revenues and expenses in the statement of revenues, expenses and changes in fund net position. Amounts not transferred at fiscal year-end are accrued as due to/due from other funds.

Activities between funds that represent lending/borrowing arrangements outstanding at the end of the fiscal year are interfund loans. Individual interfund receivables and payables balances as of August 31, 2022, were as follows:

## Interfund Transactions

Federal and State Pass-Throughs are recorded for activity between TWDB and other state agencies related to federal or state grant awards. Amounts not transferred at fiscal year-end are accrued as due to/due from other agencies.

## NOTE 13: Continuance Subject to Review

Under Water Code Section 6.013, the Texas Water Development Board is subject to review under the Texas Sunset Act (Government Code Chapter 325) but is not abolished under that chapter. The TWDB will be subject to review during the period in which state agencies abolished in 2023 are reviewed and every 12th year thereafter.

## NOTE 14: Adjustment to Fund Balances and Net Position

Not Applicable

## NOTE 15: Contingencies and Commitments

## **Disclosure of Contingent Liabilities**

## **Rebatable Arbitrage**

Rebatable arbitrage is defined by Internal Revenue Code Section 148 for tax-exempt bonds as earnings on investments purchased with the gross proceeds of a bond issue more than the amount that would have been earned if the investments were invested at a yield equal to the yield on the bond issue. This rebatable arbitrage must be paid to the federal government. The TWDB is entitled to invest its bond proceeds at an unrestricted yield for various temporary periods ranging from six months to three years. This unrestricted earnings period begins on the date of delivery of the bond issue. Earnings on any funds held by the TWDB after the unrestricted earnings period ends must be restricted to the yield of the TWDB's bond issue. The amount of rebate due to the federal government is determined and payable during each five-year installment period and upon final payment of the tax-exempt bonds.

Arbitrage funds have been established within various TWDB programs. Deposits into these funds are made according to the arbitrage services provider's final report typically received around January following the close of each fiscal year. The TWDB estimates that rebatable arbitrage, if any, will not be material to the agency's financial condition.

### **Pending Litigation**

As of August 31, 2022, the TWDB had no pending lawsuits seeking damages against the agency.

## **Federal Costs**

The TWDB administers various federal awards and is contingently liable to refund any disallowed costs to the granting agency. During FY22, the TWDB completed the work associated with eleven federal contracts. In the process of closing out the federal awards, the Federal Emergency Management Agency (FEMA) disallowed an expenditure charged to the FY2014 Flood Mitigation Assistance (FMA) grant. The TWDB recovered funds from its subrecipient and returned the total disallowed amount to FEMA. The issue is fully resolved and the FY2014 FMA grant close out is complete.

## **Disclosure of Significant Commitments**

### **Outstanding Loan and Grant Commitments**

As of August 31, 2022, the TWDB had made commitments to provide political subdivisions and non-profit entities financing from the proceeds remaining from current or future bond issues, accumulated loan repayments, federal draw downs, appropriations or other lawful sources as follows:

## NOTE 17: Risk Management

The Texas Water Development Board is exposed to property and casualty loss and worker's compensation claims. The Board uses several approaches to decrease risks and protect against losses to the agency, including internal practices and employee training. Additionally, the Board has adopted an ethics policy applicable to all Board employees as well as a fraud, waste and abuse policy that provides for reporting loss, misuse or misappropriation of Board resources to the Board's Internal Auditor or to the State Auditor's Office. The Board's Internal Auditor and its Operations and Administration Division both evaluate potential for waste, fraud and abuse at the Board.

The Board provides financial assistance to political subdivisions of the state for construction of water-related facilities. The Board's risks generally do not arise from providing financial assistance. The Board does not manage or control the facilities and has no liability for the construction or operation of the facilities. The Board requires its

#### **Texas Water Development Board (580)**

borrowers to assume responsibility for complying with all state and federal laws, rules, and regulations in the construction and operation of facilities.

The Board has a rule and procedures regarding risk analysis and enhanced contract monitoring for its purchases of goods and services, as required by Texas Government Code § 2261.253.

The Board operates a fleet of motor vehicles and watercraft. The Board is self-insured as to its own property losses and the liability of loss to others. The Attorney General defends the agency and personnel against any lawsuit resulting from the operation of the motor vehicles or watercraft. The Board performs an annual review of the driving records of employees who drive agency vehicles, and suspends use of state-owned, leased or personal vehicles for Board business for employees who do not have an acceptable driving record. Board policy prohibits employees from using Board vehicles for private purposes or carrying unauthorized passengers. All authorized passengers who are not Board employees are required to complete a release of liability prior to traveling with an employee on Board business.

The Board assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently, there is no purchase of commercial insurance. The Board participates in the State Office of Risk Management's (SORM) Risk Management and Worker's Compensation Coverage Program. The Board's assessment for fiscal year 2022 was \$24,493.34. The assessment covers worker's compensation and risk management costs.

The Board's liabilities are reported when it is both probable that a loss has occurred, and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported.

See Note 6 for additional detail on these transactions.

## NOTE 19: The Financial Reporting Entity

As required by Generally Accepted Accounting Principles, the financial statements present TWDB and its component unit. The component unit discussed in this note is included in the state's reporting entity because of the significance of its operational or financial relationships with the state.

## **Discrete Component Units**

The TWDB is financially accountable for the following legally separate entity; however, the entity does not provide services entirely or almost entirely to TWDB. The component unit is reported in a separate column in the combined financial statements to emphasize that it is legally separate from the TWDB and the state. The component unit has no outstanding debt.

Texas Water Resources Finance Authority (Authority) is a legally separate entity created by the Legislature as a governmental entity and body politic and corporate for the purpose of increasing the availability of financing for water-related projects, and primarily benefits the citizens of Texas. A board of directors, composed of the three members of the Texas Water Development Board (TWDB), governs the Authority. The members of the TWDB are appointed by the governor. TWDB, through a sales and servicing agreement, wholly manages the Authority's operations. The Authority's fiscal year end is the same as TWDB's.

## NOTE 20: Stewardship, Compliance and Accountability

As of August 31, 2022, management is unaware of any material violations of finance related legal and contract provisions.

With regard to compliance and accountability, there are:

- 1. no material violations of finance-related legal or contractual provisions,
- 2. no deficit fund balances or net position in individual funds,
- 3. no expenditures exceeding appropriations in individual funds,
- 4. no changes in accounting principles,
- 5. no changes in reporting of loans,
- 6. no changes in fund types and
- 7. no non-exchange transactions were recorded in the financial statements.
