

**EXPLANATION**

○ 1418E  
○ 152E

Well used for control

Top number indicates altitude of top of San Angelo Sandstone

Bottom number indicates thickness of San Angelo Sandstone

"E" indicates estimated

—— 1400 ——

Structure contour

Shows approximate altitude of top of San Angelo Sandstone

Contour interval 100 feet

Datum is mean sea level

Outcrop of San Angelo Sandstone

Dashed where approximately located

Figure 9  
 Approximate Thickness and Approximate Altitude of the Top of the San Angelo Sandstone

Base from U.S. Geological Survey topographic quadrangles
